

New

DEMOISELLE[®]

A new post by URBACO

Offering more advantages, it combines:

- **An exclusive line** with a strong identity, unique on the market (a registered model) to **enhance** urban sites.
- **A « Classical » silhouette** - and - **a « Modern » style**, designed with sobriety, elegance and slenderness. The **Demoiselle[®]** post simply fits in naturally in a wide variety of sites, satisfying the architectural prerequisites of town planners.
- **The Demoiselle** post offers **outstanding aesthetics** and does not take much **ground space**; its **impact resistance** is at least 7 times higher than other posts'.
- Polyester powder coating paint, extending the Demoiselle's **life span** and a top-level **quality finish** (a tradition by URBACO's standards)
- **Numerous options available** to better answer the diversity of needs and applications :
 - **cast iron or steel**,
 - **removable** with **Fixator[®]**,
 - **CP System[®]** (increased impact resistance with programmed breaking limit through shear ring),
 - **Demoiselle** posts are also available with **eyelets and chains**.
